

# REJUVENATING TOUCH MASSAGE THERAPY

## AGREEMENT

The Massage therapist does not diagnose, treat, prescribe for or offer medical service for any disease, illness, or other physical or mental disorder of a person. Nothing said in the course of the massage session should be misconstrued as such. This agreement should help clarify the professional boundaries of massage therapy in the state of Connecticut, and make it known that the Massage Therapist, unless holding a degree as such, is not trained as a medical doctor, chiropractor, or physical therapist. It should be clear that the service and intent of massage therapy is in no way similar to that of so-called “massage parlors” or “adult entertainment massage”.

I understand that medical gowns and/or draping will be provided during the massage, that there are massage forms which do not require the removal of clothing, and that I may determine how much clothing to remove.

I understand that I am responsible for communicating any physical or emotional discomfort, if any should arise, during the massage session.

In the spirit of this agreement, I understand that the relief of physical or emotional discomfort is coincidental. My signature below acknowledges that I have read and understood the above.
